RE: MY AMBITION

Dear Sir/Madam,

My name is Kalunga Justine, I am very grateful and humbled to write this letter to you ~~once~~ more.

I am still appreciating for what you are doing in my life, I can just say that; God continue to release more blessings upon your lives, and His hand which is not short to continue protecting you in every situation, and good success and prosperity in every thing you do.

The main purpose of writing this letter to you is concerning what I want to achieve in my future life. As you know this year I am writing my final grade ~~twelve~~ (12) examinations. Therefore, I am looking forward to see your help. Because I know and I believe that you are the people God has chosen to help me achieve what I want to achieve. It is just through your help.

After the results come out in February, 2012 (next year) I want to study for medicine as a medical doctor. I have the desire to work for people. I like to be found with people most of the time and encouraging them with the word of God more especially my fellow youths.

In conclusion I can just say that; I want to help my family members. Not only my family members but also other people God will give me to help.

Your response will be highly appreciated.

Yours faithfully,
Kalunga Justine.

Reme.
